INTERNATIONAL CALL FOR BIDS NO. 1 – BRIEF DESCRIPTION

Call for bids No. 1 relates to the supply, including delivery to site, of three (3) mobile high-pressure pump units, electrically powered, housed in standard 20-foot containers and with associated services, more precisely:

- General specifications:
 - The mobile pump units comprise all the equipment - including pumps, transformers, instruments, cables, piping, containers, variable speed driver - required for autonomous (or quasi-autonomous) operation;
 - They are made up of an assembly of units (containers);
 - They can operate alone or in parallel.
- Hydraulic specifications:
 - Flow rate: 235 to 435 m³/h ;
 - Discharge pressure: 17 to 77 bar ;
 - Liquid transferred Jet A1.
- Power supply:
 - Mobile pump units are supplied at 690 Volts.
- Delivery sites:
 - The equipment will have "mother" sites in each of the nations, Belgium, the Netherlands and Germany. These facilities will receive the units on a permanent basis outside times of crisis. They will be moved to other installations within a 72-hour period.
 - Deliveries will be made to the "mother" sites, i.e. 3 different sites.
- Associated support services:
 - Training on equipment operability and installation at the time of delivery in French, Dutch and German.
 - Associated user manuals in English, French, Dutch and German.

The call for bids will be issued in French language. Bids from bidders must be issued in French language.

The provisional schedule of equipment supply is considered as follows:

- On-site deliveries, including tests and training, scheduled from late 2025 to the first quarter of 2026.
