Hope this letter finds you well. This is Syedur Aftab from Blue Bangladesh which is an exclusive sales agent of Bangabandhu Satellite-1 from Bangladesh Satellite Company Limited (BSCL). Moreover, we have also done an agreement with BSCL to provide four Satellite Balloons. We also work for hydrology. In Bangladesh apart from BSCL (Government Enterprise), we are the only one, who can work as a satellite company in private sector.

We are highly interested to grow bilateral relationship in between Bangladesh and Turkey to create new endeavor in trade and commerce sectors. Here are our requirements:

1. Since Bangabandhu Satellite-2 will be launched soon, we need 2 types of consultancy here. Firstly, we are looking for document preparation, documentation, pricing, and commission detail on it. Besides, contract execution support is also required.
2. Though we have GEO Stationary (communication-based) satellite, could you please assist us to get services based on earth observing satellite in Bangladesh?
3. Moreover, we need Remote Sensing Image in high resolutions to provide in competitively cheaper price.

Being a brotherly country with amicable relationships, we strongly believe that we can take our relations to the next level bilaterally to be part of mutual business partnership. Let me know your thoughts on those services mentioned here.

Thank you in advance.
