"Important announcement about starting the application of the pre-registration system "Advanced Cargo Information" in Libya.

The Customs Authority started applying the ACI system in Libya, in accordance with the Prime Minister's resolution No. 431/2023. The system has been on trial since July 30th, 2024.

The Customs Authority calls on all exporters and importers, or their legal representatives, to register in the ACI system and dispatch their cargoes through the system after registration.

Please note:

No goods will be allowed to be shipped to Libya without obtaining the ACI document after the mandatory application of the system.
